5th January 2021

Dear Mr Parisi

Thank you so much for your kind donation of £500 which will help to provide vital bales of hay, feed and care for around 4000 rescued animals. We were pleased to be able to offer a home to the sheep that were recently abandoned on your land and are pleased to let you know they are settled in now.

We have continued to help horses and ponies from stray horse pounds all around the UK who simply have no other option available. Many come to us in a terrible state, being extremely underweight, with overgrown feet, heavy worm burdens and some with injuries. We are always heartened by the difference a few weeks of proper feed and care makes and it is so rewarding to see their transformation. Once at Hillside, as most arrive with us as stallions or colts and, as with all incoming animals, we have an ongoing castration programme to prevent further breeding, which adds to our vet's fees.

In the previous twelve months, we've rescued lots of different animals, including cows, pigs, sheep and also given a home to horses and farm animals from another sanctuary that sadly had to close due to lack of funds. We were grateful to be able to step in and give these once rescued animals a second chance of life.

Without donations such as yours, none of this would be possible. So, a very big **'Thank You'** from all the staff and animals alike at Hillside. We are pleased to enclose our Anniversary Newsletter, which we hope you find interesting.

Best wishes and stay safe
