

# BIOPHILIC CORE HEALTH + WELLBEING

## PROPOSED SHUTTLE BUS SERVICE

Potential new stop on proposed Oxford - Cambridge shuttle bus service

## NORTH BUILDINGS

Laboratory and office space that protects the centre of the site from road noise from bus way and A428

## BIOPHILIC CORE

Interconnected indoor / outdoor spaces, placing wellbeing at the heart of the campus, connecting all campus green spaces, and providing a strong navigation route through the campus

## COMMUNITY SPACE

Biophilic core spills into the community hub

## SOUTH BUILDINGS

Laboratory and office space that could be independent or connected across the biophilic core to the north

**Biophilic design** increases connectivity to the natural environment through the use of direct and indirect nature, space and place conditions, to improve occupants health and well being. Resulting in **more productive, healthier and happier places to work.**
